INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Big Sur Land Trust (A California Nonprofit Public Benefit Corporation) Monterey, California

Opinion

We have audited the accompanying financial statements of Big Sur Land Trust (the Trust) (a California nonprofit public benefit corporation), which comprise the statement of financial position as of June 30, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Trust as of June 30, 2022, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Gerald Ray, CPA | Patricia Kaufman, CPA, CGMA | Smriti Shrestha, CPA

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Trust's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited the Trust's 2021 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 6, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021, is consistent, in all material respects, with the audited financial statements from which it has been derived.

1. Nature of Business

Big Sur Land Trust (the "Trust") is a California nonprofit public benefit corporation formed in 1978. The mission of the Trust is to inspire love of the land and conservation of our treasured landscapes. In collaboration with partners and the community, the Trust has protected more than 38,000 acres of land since its inception, including 4,567 acres currently held in fee title, 6,926 acres held in conservation easements, and over 28,000 acres where the Trust has facilitated the transfer of privately held land into protective public and nonprofit ownership.

The Trust is committed to pursuing land and water conservation work that strengthens our communities and inspires a stewardship ethic so that Monterey County can maintain its unique and special place in the world. The goal and commitment of the Trust is to pursue resource conservation that supports the well-being of land and people and sustains our region's unique quality of life for us all.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Trust have been prepared on the accrual basis of accounting and accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments and investments with a maturity of three months or less and exclude donor amounts designated for long-term purposes. The Trust maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. Management believes it is not exposed to any significant risk on cash accounts. The Trust has not experienced any losses in such accounts. The Trust has cash balances in brokerage accounts which are not insured or guaranteed by Federal Deposit Insurance Corporation (FDIC) or Securities Investor Protection Corporation (SIPC). The Trust maintains its cash with a high-quality financial institution which the Trust believes limits these risks.

Investments

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter, investments are stated at fair value based on quoted market prices provided by investment managers. Net investment returns are reported in the statement of activities and consists of dividends and interest income, realized and unrealized capital gains and losses, less investment fees. Net investment returns are accrued as earned and recorded as revenue without donor restriction unless income is restricted by a donor. If the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized, net investment returns are reported as an increase in net assets without donor restrictions.

Investments are composed of mutual funds invested in equity securities, money market funds, beneficial interest in accounts held at the Community Foundation for Monterey County (CFMC), and investment in split-interest trusts with readily determinable fair values as detailed in Note 4.

Concentrations of Credit Risk

Financial instruments which potentially subject the Trust to concentrations of credit risk consist primarily of cash and cash equivalents, investments, contributions, and receivables. Risk associated with cash and cash equivalents are mitigated by banking with creditworthy institutions. The majority of the Trust's cash was held at five financial institutions at June 30, 2022. These accounts are insured up to \$250,000 per depositor by an agency of the federal government. Investments are exposed to various risks, such as interest rate, market and credit risks. The Trust's

investments are maintained in a diversified portfolio with the assistance of professional investment advisors. Due to the nature of such risks, it is at least reasonably possible that changes in the fair value of investment securities in the near term could materially affect the Trust's financial position and changes therein. Receivables consist primarily of promises to give, grants receivable, and trusts receivable and are closely monitored by the Trust for collectability. Contributions and grants are receivables from donors and will be paid according to agreed-upon payment schedules. The Trust believes these amounts are fully collectible.

Accounts Receivable

Management believes all accounts receivable to be fully collectible; accordingly, there is no allowance for doubtful accounts.

Grants and Pledges Receivable

The Trust received grants and contracts from state and federal agencies to be used for restoration and open space development projects. The Trust uses the allowance method to determine uncollectible grants receivable, except for state and federal direct reimbursement grants that are fully collectible. An allowance for doubtful accounts is made annually.

Pledges receivable represent amounts unconditionally committed by donors that have not been received by the Trust. Promises to give are recorded at the present value of their net realizable value, using interest rates applicable to the years in which the promises are received to discount the amounts. Under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, the Trust used a 4% discount rate for the year ended June 30, 2022.

The Trust uses the allowance method to determine uncollectible pledges receivable. The allowance is based on the Trust's fundraising consultant's recommendation and management's analysis of specific contributions made. The allowance for doubtful pledges receivable at June 30, 2022 was \$6,616.

Beneficial Interest in Split-Interest Agreements

The Trust recognizes an asset and the related revenue of charitable trusts when they receive notification of an irrevocable interest in this type of contribution. When management expects the cash from these contributions to be received more than one year in the future, the asset and revenue are discounted using a risk-free interest rate applicable to the years in which the cash flows are expected to be received.

Property and Equipment

Property and equipment are recorded at cost or fair value for donated items. It is the Trust's policy to capitalize property and equipment purchases over \$2,000. Depreciation is computed using the straight-line method based on the estimated useful lives of the assets, which range from 3 to 30 years. Depreciation is charged to the activity benefiting from the use of the property or equipment. Donations of property and equipment are recorded as contributions in-kind at their fair market value at the time of donation. Such donations are reported as unrestricted contributions unless the donor has restricted the donated asset to a specific purpose.

The cost of repairs and maintenance which does not improve or extend the lives of the respective assets is expensed as incurred. When property or equipment is sold or retired, the related costs and accumulated depreciation are removed from the accounts and any gain or loss is recognized in the year of sale or disposition.

Conservation Land-Acquisitions

Acquisitions of land by the Trust frequently occur in the form of gifts or as purchases for amounts which may be below fair market value. When the Trust acquires land at prices below fair market value, contribution revenue is recognized for the difference between the purchase price and the estimated fair market value. Land acquired by purchase is recorded at cost. Direct costs incurred in the acquisition or improvement of land are added to the carrying value.

The Trust records donated land at fair market value as determined under one of the following valuation procedures:

- Values are primarily based on independent professional appraisals performed for the Trust or on appraised values determined or adopted by public agencies.
- Where a current appraisal is readily available from a professionally qualified independent appraiser retained by a third party, such value may be adopted when the Trust is satisfied that the appraisal is reasonable.
- Where neither of the foregoing sources is readily available, the Trust may use the full cash value as established by the local tax assessor, cost if the cash value is minimal, or internal estimates based on management analysis.

Conservation Land Transfers

The Trust often conveys land to public agencies and other nonprofit organizations for amounts less than fair market value. The difference between the selling price and the estimated fair market value at the transaction date is recognized as donation expense and is included in the program expenses for land and easement acquisitions. There was no donated land expense for the year ended June 30, 2022.

Conservation Easements

The Trust periodically receives or purchases conservation easements which limits the allowable uses of the related property to open space uses consistent with the Trust's mission. Contributed conservation easements received are recorded as land contributions based on the estimated value given up by the landowner by restricting the use of the property with an easement. Because of donor restrictions, contributed conservation easements and conservation easements purchased with restricted donations bear no future benefit to the Trust and are therefore expensed as land and easements conveyed in the year they are acquired. In connection with the transfer or sale of land to governmental agencies, the Trust may retain a conservation easement on the land. Because these easements bear no future financial benefit to the Trust, they are not recorded on the Trust's statement of financial position. The Trust capitalizes the cost of purchased easements only when they are expected to be sold or otherwise result in some future financial benefit to the Trust. There were no capitalized conservation easements for the year ended June 30, 2022.

Offers to Dedicate

The Trust periodically acquires properties subject to contingent restrictions on the title known as offers to dedicate. Offers to dedicate are sometimes required by grantors as a means to ensure the Trust maintains the land in a manner consistent with the grantor's wishes. These provisions are consistent with the Trust's mission and generally include restrictions regarding the preservation of land for conservation purposes, that the land is not used to secure debt and that the land may not be transferred without prior approval of the grantor. If the Trust were to violate these provisions or to cease business, the offers to dedicate would automatically transfer title to the grantor agencies or another nonprofit entity.

Net Assets

Net assets, revenues, gains and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor or grantor restrictions over which the Board of Trustees has discretionary control in carrying out the operations of the Trust.

Net Assets With Donor Restrictions – Net assets subject to donor or grantor imposed restrictions and for which the applicable restriction was not met as of the year end of the current reporting period. Some restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates those resources are to be maintained in perpetuity.

Revenue Recognition

The Trust recognizes support and revenue on the accrual basis of accounting. Revenue from grants and program fees are recognized as revenue in the period in which the services are provided. Other income and rental revenue are reported when earned based upon the contract terms. Unearned rental revenue is recorded as deferred revenue.

Contributions and grants, whether or not restricted, are recognized as revenue at fair value when received by or unconditionally promised to the Trust. The Trust reports gifts of cash and other assets restricted by donors as increases in net assets without donor restrictions if the restrictions expire (that is, when a stipulated time restriction ends, or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor restricted contributions and grants are reported as increases in net assets with donor restrictions, depending on the nature of the restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Unconditional promises to give, less an allowance for uncollectible amounts, are recognized as support in the period received and as assets, decreases of liabilities, or expenses depending on the form of the benefits received. Promises are recorded at net realizable value if expected to be collected in one year and at discounted value if expected to be collected in more than one year. Conditional promises to give, if any, are recognized only when the conditions on which they depend are substantially met and the promises become unconditional.

The Trust records special events revenue equal to the fair value of direct benefits to donors, and contribution income for the excess received when the event takes place. The Trust recognizes revenue from ticket sales at the time of admission.

Contributions In-Kind

Donated equipment and other donated goods are recorded at their fair value as of the date of the donation and are reported as increases to net assets without donor restrictions unless explicit donor stipulations specify how donated assets must be used. The Trust recognizes the fair value of contributed services received if such services a) create or enhance nonfinancial assets or b) require specialized skills that are provided by individuals possessing those skills and would typically need to be purchased if not contributed. No significant contributions of such goods or services were received for the year ended June 30, 2022.

Expense Allocation

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities and in the statement of functional expenses. The statement of functional expenses presents the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Salary expense allocation is based on a direct distribution per employee time sheets. Management allocates indirect costs based on the ratio of total allocable indirect costs to total non-salary costs.

Income Taxes

Big Sur Land Trust is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and state income taxes under Section 23701(d) of the California Revenue Taxation Code. However, income from certain activities not directly related to the Trust's tax-exempt purpose is subject to taxation as unrelated business income. In addition, the Trust qualifies for the charitable contribution deduction under Section 170(b)(1)(A) of the Internal Revenue Code and has been classified as an organization that is not a private foundation under Section 509(a)(1) of the Internal Revenue Code.

Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America provide accounting and disclosure guidance about positions taken by an organization in its tax returns that might be uncertain. Management has considered its tax positions and believes that all of the positions taken by the Trust in its federal and state tax returns are more-likely-than-not to be sustained upon examination.

The Trust files information returns in the U.S. federal jurisdiction and state of California. The Trust's federal returns for the tax years 2019 and beyond remain subject to possible examination by the Internal Revenue Service. The Trust's California returns for the tax years 2018 and beyond remain subject to possible examination by the Franchise Tax Board.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of support, revenue and expenses during the period. Accordingly, actual results could differ from those estimates.

Significant estimates used in the preparation of these financial statements include:

- The assumptions used in determining the net present value of the Trust's irrevocable interests in charitable trusts. A description of the assumptions used is included in Note 5.
- The assumptions used in determining the allowance for uncollectible grants and pledges receivable. Management's estimate is based on collection history.

Comparative Financial Information

The financial statements include certain prior year summarized comparative information in total but not by net asset class or functional expense categories. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Trust's financial statements for the year ended June 30, 2021, from which the summarized information was derived.

Recently Adopted Accounting Pronouncements ASU 2020-07

In September 2020, the FASB issued ASU No. 2020-07 (Topic 958), *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. The standard requires nonprofits to expand their financial statement presentation and disclosure of contributed nonfinancial assets, including in-kind contributions. The standard includes disclosure of information on an entity's policies on contributed nonfinancial assets about monetization and utilization during the reporting period, information on donor-imposed restrictions, and valuation techniques. The new standard, as amended, is to be applied retrospectively to annual reporting period beginning after June 15, 2021, and interim periods within annual reporting periods beginning after June 15, 2022. The Trust adopted that standard during the year ended June 30, 2022. The standard did not have a material impact on the financial statements.

Upcoming Accounting Standards Updates (ASU) ASU 2016-02

In February 2016, the FASB issued ASU No. 2016-02, which amends the FASB Accounting Standards Codification and creates Topic 842, *Leases*, requiring organizations to recognize lease assets and lease liabilities on the statement of net position and requiring disclosure of key information about leasing arrangements. The guidance is effective for periods beginning after December 15, 2021. ASU No. 2016-02 mandates a modified retrospective approach. The Trust is currently evaluating the impact of the pending adoption of this new standard on its financial statements and expects the impact to be de minimis.

3. Liquidity and Availability

The Trust's Board of Trustees passed a resolution to designate an operating reserve from its net assets without donor restrictions to build and maintain an adequate level of net assets to support the organization's day-to-day operations in the event of unforeseen shortfalls. The operating reserve serves a dynamic role and will be reviewed and adjusted in response to internal and external changes.

The minimum amount to be designated as operating reserve will be established in an amount sufficient to maintain ongoing operations and programs for a set period of time, measured in months for a target amount equal to 25% of annual operating expenses excluding those funded by public grants and endowments earnings. The reserve is to be recorded in the books of the Trust as Board Designated Operating Reserve. The operating reserve fund has been initially set and subsequently maintained at \$750,000 and available in cash or liquid investments and will continue to be funded with surplus operating funds without donor restrictions.

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date, comprise the following:

Cash and cash equivalents	\$ 3,474,586
Investments	6,646,801
Interest and other receivable	165,736
Pledges receivable - current portion	247,956
Grants receivable, net	286,099
Beneficial interest in split-interest trusts - current portion	93,345
Total financial assets as of June 30, 2022	10,914,523
Less those unavailable for general expenditures within one year due to: Contractual or donor imposed restrictions	
Restricted by donor with purpose restrictions	(6,845,792)
Subject to appropriation and satisfaction of donor restrictions	(549,597)
Fiscal agency payable	(9,470)
Board designated reserve	(3,197,314)
Total financial assets available to meet cash needs for general expenditure within one year	312,350
Other resources available:	
Line of credit	1,500,000
Total financial assets and other resources available to meet cash needs	
for general expenditure within one year	\$ 1,812,350

In addition to the financial assets and other resources available for general expenditure within one year, the Trust has board-designated reserve net assets without donor restrictions of \$3,197,314 that, while the Trust does not intend to spend these for purposes other than those identified, the amounts could be made available for current operations, with Board approval, if necessary.

4. Investments

Investments consist of funds that are with donor restriction and without donor restriction funds. These funds are invested with Merrill Lynch and Community Foundation for Monterey County.

The investment objectives of the Trust are reviewed and revised annually as part of the budgeting process. The aim is to obtain a risk tolerance that is consistent with similar non-profit organizations, while helping to achieve the Trust's current objectives. The rate of return will be established to sustain conservation and stewardship spending policies while meeting the Board designated growth target for investment funds. The rate of return objectives will be established in light of the impact of annual inflation, transaction expenses, risk tolerance, and other relevant factors.

The fair values of the Trust's investments as of June 30, consisted of the following:

	2022	2021
Equity - domestic	\$ 10,860,199	\$ 13,750,635
Mutual bond funds	3,168,163	3,768,060
Mutual equity funds	40,623	736,832
Money market funds	718,628	412,904
Total investments	\$ 14,787,613	\$ 18,668,431

Fair Value Measurements

The Trust measures its assets and liabilities at fair value in accordance with Topic 820 Fair Value Measurements of the FASB Accounting Standards Codification (ASC). This guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a framework for measuring fair value.

The guidance establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The guidance expands disclosures about instruments measured at fair value. The guidance applies to other accounting pronouncements that require or permit fair value measurements and, accordingly, the guidance does not require any new fair value measurements.

The guidance establishes a three-level valuation hierarchy for disclosure of fair value measurements. The three levels are defined as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Trust has the ability to access. Level 1 securities include highly liquid U.S. Treasury securities, certain common stocks and mutual funds.
- Level 2 inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, inputs to the valuation methodology include quoted prices for identical assets or liabilities in inactive markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the same term of the financial statement. Most debt securities, preferred stocks, certain equity securities, short-term investments, and derivatives are model pricing using observable inputs and are classified as Level 2.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurements. These inputs reflect assumptions of management about pricing the assets or liability including assumptions about risk such as bid/ask spreads and liquidity discounts. Example of Level 3 assets include investment in limited partnership.

A financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level within the hierarchy, the Trust's assets measured on a recurring basis at fair value as of June 30, 2022:

	Total	Level 1	Level 2	Level 3
Mutual Fund				
Equity - domestic	\$ 10,860,199	\$ 10,860,199	\$ -	\$ -
Mutual bond funds	3,168,163	3,168,163	-	-
Mutual equity funds	40,623	40,623		
	14,068,985	14,068,985	-	-
Beneficial interest in assets				
held by CFMC	1,863,971	-	-	1,863,971
Beneficial interest in				
split-interest trusts, net	2,177,566			2,177,566
	4,041,537	-	-	4,041,537
Total recurring fair value				
measurements	\$ 18,110,522	\$ 14,068,985	\$ -	\$ 4,041,537
Institutional money market*	\$ 718,628	\$ -	\$ -	\$ -
Real estate investment	\$ 519,131	\$ -	\$ -	\$ -
Investment portfolio total	\$ 19,348,281			

^{*}Institutional money market funds included in the investment portfolio are not subject to provisions of fair value measurements as they are recorded at cost.

The following methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following is a description of the Trust's valuation methodologies for assets measured at fair value:

Mutual Funds (Cash, Equities and Fixed Income)

Valued at the closing price as reported on the active market on which the individual securities or funded are traded.

Community Foundation for Monterey County –Carmel River FREE Stewardship Fund (CRFREE)

Investments held by the Community Foundation for Monterey County (CFMC) represent amounts held in various Stewardship Funds at Community Foundation. CFMC invests the assets held in the fund. The income can be distributed. The principal may be distributed if approved in writing by three-fourths of the members of the Trust's governing body and a majority of the Board of Directors of the CFMC. If distributed, the principal is to be used according to the purposes set forth in the agreements. The agreements governing the assets include variance power allowing CFMC to modify the restrictions on distributions from the fund. The Trust has used the fair value of its pro-rata share of the investment pool held by CFMC to determine the fair value of the beneficial interest. The unobservable inputs to the valuation are the underlying assets at the CFMC; therefore, these investments are classified as Level 3 assets within the fair value hierarchy.

Beneficial Interest in Split-Interest Agreements

Donations that are held in split-interest trusts where the Trust serves as trustee or does not serve as trustee, representing beneficial interest in trusts. Values are based on the present value of expected cash flows, which approximates fair value.

The following table sets forth a summary of changes in the fair value of the Trust's Level 3 assets at June 30, 2022:

	Beneficial	Beneficial	
	Interest in	Interest in	
	Assets Held	Split-Interest	
	by CFMC	Trusts	Total
Balance, beginning of year	\$ 1,549,232	\$ 2,496,305	\$ 4,045,537
Contributions	613,089	-	613,089
Investment return, net	(298,350)	-	(298,350)
Distributions	-	(93,345)	(93,345)
Change in value of split-interest trusts		(225,394)	(225,394)
Balance, end of year	\$ 1,863,971	\$ 2,177,566	\$ 4,041,537

Real Estate Investment

The Trust purchased real estate investment property during the fiscal year 2017-18. This investment is recorded at cost. This investment was valued at its purchase price in February 2018.

The investment consists of 50% interest in a three-bedroom, three bath single family home in Monterey, California. The other half interest was purchased by Jeannette and Jamison Tuitele-Lewis, the Trust's President/CEO, and serves as their residence pursuant to an Equity Sharing and Tenancy in Common Agreement dated February 2, 2018, and Board Resolution 2017-04 adopted June 14, 2017. The Shared Equity Agreement lays out the basis for cost sharing for major improvements and property taxes, while leaving basic maintenance and upkeep as the Tuitele-Lewis's responsibility. Upon termination of employment, the Land Trust has the right to repurchase the Tuitele-Lewis's 50% interest at the then market value as determined by appraisal.

5. Trusts Receivables, Net

As of June 30, 2022 the Trust has the following trust receivables:

Beneficial interest in split-interest trusts:

Remainder beneficiary in trust, net Beneficiary in Elliott Trust	\$ 1,139,720 1,037,846
Total beneficial interest in split-interest trust, net Less current portion of beneficial interest in split-interest trusts	2,177,566 (93,345)
Beneficial interest in split-interest trusts, net - noncurrent portion	\$ 2,084,221
Residual interest in split-interest trusts: Residual interest in irrevocable charitable remainder unitrust	\$ 500,000

The Trust is a trustee and remainder beneficiary of three irrevocable charitable remainder unitrusts, one revocable charitable remainder unitrust and two pooled income funds organized in the form of trusts. Provisions for these various trusts require distributions of the trusts' net income, or a percentage of their net fair value, to designated beneficiaries on a quarterly basis during their

lifetimes. At the end of the trusts' term and after payments to any other remainder beneficiaries, the remaining trust assets will be available for the Trust's unrestricted use.

Charitable Remainder Trusts (Big Sur Land Trust as Trustee)

In those cases where the Trust acts as trustee, the portion of the unitrusts attributable to the present value of the estimated future benefits to be received by the Trust was recorded as a with donor restricted contribution in the period the unitrusts were established. Assets held in the unitrusts are reported at fair value. On an annual basis, the Trust revalues and records a liability for the present value of required distributions to the designated beneficiaries based on actuarial assumptions. The present value of the estimated future payments is calculated assuming a 6.0% investment return, discount rates of 5.8% to 9.8%, and life expectancies based on applicable mortality tables.

Pooled Income Funds

When contributions are made to either of the two pooled income trusts, the Trust records donor restricted contribution equal to the present value of the Trust's remainder interest in those trusts. Assets held in the pooled income trusts as of June 30, 2022 and 2021, are reported at fair value. On an annual basis, the pooled income trusts adjust their stated value to reflect the passage of time and any changes in the life expectancy of the income beneficiaries. The present value of the Trust's remainder interest is calculated using a 2.8% discount rate.

The assets held in the split-interest trusts and their related liabilities are summarized below:

	Related	
Assets Held	Liabilities	Net Assets
\$ 407,409	\$ 407,409	\$ -
2,339,129	1,343,849	995,280
165,340	20,900	144,440
\$ 2,911,878	\$ 1,772,158	\$ 1,139,720
	Related	
Assets Held	Liabilities	Net Assets
\$ 517,674	\$ 517,674	\$ -
2,682,282	1,593,498	1,088,784
322,518	23,550	298,968
\$ 3,522,474	\$ 2,134,722	\$ 1,387,752
	\$ 407,409 2,339,129 165,340 \$ 2,911,878 Assets Held \$ 517,674 2,682,282 322,518	Assets Held Liabilities \$ 407,409 \$ 407,409 2,339,129 1,343,849 165,340 20,900 \$ 2,911,878 \$ 1,772,158 Related Assets Held Liabilities \$ 517,674 2,682,282 1,593,498 322,518 23,550

Investments held in split-interest trusts where the Trust serves as trustee are stated at fair value and are based on quoted market values. Investments consisted of the following at June 30:

	2022	2021
Equity funds	\$ 1,160,138	\$ 1,263,778
Cash and cash equivalents	98,743	66,244
Mutual funds	1,652,997	2,192,452
Total	\$ 2,911,878	\$ 3,522,474

Elliott Trust Receivable

The Elliott Trust is a bequeathed fund held by CFMC which engenders an annual payout of 5% of the fund balance of which 50% is payable to Big Sur Land Trust and 50% to another not-for-profit organization. The fund will pay out at this rate for 20 years (beginning in 2015 and ending in 2034), after which the remaining corpus will be turned over to a third not-for-profit organization. Payments from the fund are restricted to purchase fixed assets.

The Trust split-interest receivable as of June 30, consists of the amount due in the following years:

	2022	2021
Beneficial interest in trust receivable in less than one year	\$ 93,345	\$ 95,136
Beneficial interest in trust receivable in one to five years	355,470	390,884
Beneficial interest in trust receivable in more than five years	951,360	1,036,156
Total beneficial interest in trust receivable	1,400,175	1,522,176
Less discount to present value	(362,329)	(413,623)
Total beneficial interest in trust receivable - net	\$ 1,037,846	\$ 1,108,553

Charitable Remainder Trusts (Third Party Trustee)

The Trust is also a remainder beneficiary of an irrevocable charitable remainder unitrust for which the Trust does not serve as the trustee. Provisions of this trust require annual distribution of actual income up to 9% of the net fair value of the unitrust assets to the named beneficiaries during their lifetimes. The assets remaining after the death of the last surviving noncharitable income beneficiary will be available for the Trust's unrestricted use. The portion of the unitrust attributable to the present value of the estimated future benefits to be received by the Trust was recorded as a contribution with donor restriction and is shown on the statement of financial position as a residual interest in irrevocable charitable remainder unitrust. The present value of the estimated future benefit is \$500,000 for each of the years ended June 30, 2022 and 2021.

6. Pledges Receivable, Net

Pledges receivable at June 30, consists of the following unconditional promises to give:

	2022	2021
Pledges receivable in less than one year Pledges receivable in one to five years	\$ 247,956 193,141	\$ 390,260 495,753
Total pledges receivable	441,097	886,013
Allowance for uncollectable pledges Discount to present value	(6,616) (19,243)	(13,290) (46,237)
Total pledges receivable - net	\$ 415,238	\$ 826,486

Unconditional promises to give (pledges receivable) are from various entities including foundations, corporations, and individuals. The discount rate used by the Trust on long-term pledges receivable as of June 30, 2022 was 4%.

7. Property and Equipment, Net

The cost and accumulated depreciation of property and equipment as of June 30, consisted of the following:

	2022	2021
Land	\$ 324,786	\$ 324,786
Buildings	1,178,029	1,114,134
Vehicles	175,518	114,149

Assets pledged as collateral on a loan payable is disclosed in Note 9.

8. Conservation Land and Land Deposits

The cost and valuation allowance of conservation land and land deposits as of June 30, consisted of the following:

	2022	2021
Conservation land and land deposits	\$ 26,029,237	\$ 26,133,147
Less: Valuation allowance due to irrevocable		
offer to dedicate to State	(3,950,000)	(3,950,000)
Conservation land and land deposits	\$ 22,079,237	\$ 22,183,147

On January 25, 2017, Big Sur Land Trust purchased 73 acres of agricultural land located in central Salinas, California, within the Carr Lake Basin (the Property). The Property includes storage buildings and two residences. It was acquired by BSLT for the sole purpose of creating a public park, habitat, and open space complex in the center of Monterey County's most densely populated urban community. The Trust successfully raised \$3,950,000 to purchase the Property through public and private grants. Of this sum, \$3,000,000 was provided by two California state agencies – the State Coastal Conservancy and the California Natural Resources Agency. As a condition of these public grants, the Trust is contractually obligated to dedicate the Property to specific acquisition objectives – public access, open space protection, wildlife habitat and environmental restoration. Both agencies also required documents to be recorded on the title of the Property as additional measures to ensure the permanent dedication of the site for public benefits through specific deed restrictions:

1) The State Coastal Conservancy required that an Irrevocable Offer to Dedicate Title in Fee and Declaration of Restrictive Covenants (OTD) be recorded – Document #2017004454 dated 01/25/17 Official Records of Monterey County; and

2) The California Natural Resources Agency required that a Memorandum of Unrecorded Grant Agreement be recorded – Document #2017004455 dated 01/25/17 Official Records of Monterey County.

These documents require the Trust to transfer the Property to the City of Salinas or another appropriate public agency in order to ensure public use into the future once the community engagement and site design phase of this project is complete and funds are secured for implementation. During this process, which could take several years, the Trust plans to continue to lease the site for agricultural and residential use. All lease income derived from this site will be placed in the Property's stewardship fund, as obligated by the OTD, and solely for developing the Property into a public facility. Agricultural use is capped at seven years from the date of purchase and will end in 2023.

Given the above-described restrictions and absence of flexibility not only on external use of income but also in eventual disposition of the Property, the Trust has determined that a valuation allowance, equal in value to the purchase price of the Property, should be recorded on the Trust's statement of financial position, thereby effectively carrying the asset at zero value.

2022

70,000

2021

\$ 140,000

330 583

9. Loans Payable

The Trust has received financing as follows at June 30:

Logar, Inc. loan dated November 7, 2008 in the initial amount
of \$1,200,000, secured by a deed of trust on the McWhorter-
Songbird property. The loan bears no interest and is payable in
annual installments. For fiscal years ending 2014 through 2023,
the annual principal installments will be \$70,000.

Trust received a loan from Pacific Valley Bank in the amount of \$330,583 under the Paycheck Protection Program (PPP) established by the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The loan is subject to a note dated May 6, 2020, which may be forgiven to the extent proceeds of the loan are used for eligible expenditures such as payroll and other expenses as described in the CARES Act. The loan bears interest at a rate of 1% and is payable in monthly installments of principal and interest over 24 months beginning 10 months after the end of the loan forgiveness covered period.

				330,363
Total	7	0,000		470,583
Less current portion	(7	(0,000)	((400,583)
Total, less current portion	\$		\$	70,000

The Trust applied for Paycheck Protection Program loan forgiveness with the lender and received full forgiveness of \$330,583. The Trust recognized the forgiveness of debt as other income in the fiscal year ended June 30, 2022.

10. Line of Credit

The Trust maintains a \$1,500,000 line of credit arrangement with Pacific Valley Bank for use in organizational activities. The line of credit was extended on September 8, 2020 and will mature on July 10, 2022. The line of credit bears interest at 3.25%. The line of credit is secured by a deed of trust on the Trust office building situated at 509 Hartnell Street in Monterey. The line of credit had no outstanding balance as of June 30, 2022.

11. Board Designated Net Assets

Board designated net assets consisted of funds designated for easement defense, monitoring, and stewardship in the amount of \$3,197,314 and \$3,580,771 at June 30, 2022 and 2021, respectively.

12. Endowment

The Trust's endowments consist of the Seeley and Virginia Mudd Endowment Fund, and the Catherine L. and Robert O. McMahan Stewardship Endowment. As required by generally accepted accounting principles (GAAP), net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions. The Trust has the following two endowments:

Seeley and Virginia Mudd Endowment Fund

The annual income from the Seeley and Virginia Mudd Endowment Fund is restricted for use in the preservation and management of the Glen Deven Ranch (the Ranch).

The Ranch is an 850-acre property located adjacent to the Palo Colorado Canyon on the Big Sur Coast approximately 15 miles south of Carmel. The Ranch was donated to the Trust in perpetuity to be held and administered in a manner that would preserve the Ranch intact and protect the natural, open space, aesthetic and ecological features of the property and its unique beauty for public benefit.

The Catherine L. and Robert O. McMahan Stewardship Endowment

The Catherine L. and Robert O. McMahan Stewardship Endowment is perpetual with a donor restricted fund for stewardship, restoration and quality management of lands and waters in Monterey County. Earnings and gains from the fund are restricted to the care of natural resources, restoring and ensuring healthy habitat, protecting native and endangered plants and animals, and enabling public enjoyment of parks, trails and open space.

Interpretation of Relevant Law

The Board of Trustees of the Trust has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Trust classifies as net assets with donor restrictions (a) the original value of gifts donated to the perpetual endowment, (b) the original value of subsequent gifts to the perpetual endowment, and (c) accumulations to the perpetual endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. In accordance with the SPMIFA, the Trust considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Trust and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effects of inflation and deflation

- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Trust
- (7) The investment policies of the Trust

Underwater Endowments

From time to time, the fair value of assets associated with donor-restricted endowment funds may fall below the amount required to be maintained by donors or by law (underwater endowments). The Board of Directors of the Trust has interpreted SPMIFA to permit spending from underwater endowments in accordance with prudent measures required under law. There were no deficiencies of this nature that would be required to be reported in unrestricted net assets as of June 30, 2022 and 2021.

Investment Return Objectives, Risk Parameters and Strategies

Investment Objective - Annually, as a component of the budgeting process, management and the Internal Operations Committee (IOC) will establish a target rate of return to sustain conservation and stewardship spending policies and meet Board designated growth for the investment funds. Portfolio return objectives should consider the impact of annual inflation, transaction expenses, risk tolerances, and other relevant factors.

<u>Asset Allocation Limitations</u> - Are agreed upon by the investment managers in consultation with the IOC.

<u>Risk Tolerance</u> - The investments shall be diversified to manage the risk of loss resulting from over concentration of assets in specific maturity, specific issuer, or specific classes of securities. Diversification strategies shall be recommended by the investment manager and periodically reviewed and approved by the IOC. It is the expectation of the Board that the Trust maintain an investment risk profile similar to that of other non-profit organizations with similar objectives. Establishment of risk tolerance will be reviewed annually, and consideration will be given regarding the current objectives of the Trust and current economic and market conditions.

Spending Policy

The Trust's endowment spending policy is determined on an annual basis by the IOC based on investment objectives and current financial conditions. The actual spending rate of 4% for the fiscal year is approved as part of the annual budget approval process.

In establishing this policy, the Trust considered the following factors:

- (1) The duration and preservation of the endowment funds
- (2) The purposes of the Trust and the endowment funds
- (3) General economic conditions
- (4) The possible effect of inflation or deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Trust; and
- (7) The Trust's investment policy

14. Property Revenue

Property revenue for the years ended June 30, consisted of the following:

	2022	2021
Cell Tower land lease rental income	\$ 71,731	\$ 69,134
Carr Lake lease rental income	158,310	151,717
Elk Run House 50% ownership (rental value)	23,700	23,700
Glen Deven property rental income	151	666
Marks Ranch fire staging income	-	33,022
Arroyo Seco fire staging income		13,253
Total property rental revenue	\$ 253,892	\$ 291,492

15. Special Event, Net

The Trust considers special events as community engagement activities, not fundraising opportunities. Special event for the years ended June 30, consisted of the following:

		2022		
	Tickets	Tickets Expenses		
Race for open space	\$ 27,232	\$ 13,647	\$ 13,585	
		2021		
	Tickets	Expenses	Net	
Race for open space	\$ 45,983	\$ 15,680	\$ 30,303	

16. Retirement Plan

The Trust has a 403(b) Tax Sheltered Annuity Plan which is available to all employees who have completed one year of service and have attained age 21. Employer contributions are to be 5% of each employee's gross annual salary. For the years ended June 30, 2022 and 2021, the Trust made retirement contributions in the amount of \$85,059 and \$79,457, respectively.

17. Community Foundation Agency Endowment Funds

The BSLT Stewardship Fund was established at Community Foundation for Monterey County (CFMC) for the benefit of the Trust. For the years ended June 30, 2022 and 2021, respectively, the balances of this fund were \$36,250 and \$44,878.

The Jane P. McKay Endowment for the Fellowship Program Fund was established at CFMC for BSLT's work with interns. For the years ended June 30, 2022 and 2021, respectively, the balances of this fund were \$156,025 and \$188,783.

These funds are owned and administered by the CFMC and the assets of the funds are not included in the financial statements of the Trust. Net income from the funds is distributed to the Trust under the terms of the endowment agreements.

18. Fiscal Agency Funds – Park It! Stewardship Fund

The Park It! Initiative is a community-based coalition among multiple state, federal and local agencies to develop, support and implement solutions to improve traffic safety and address public access challenges now facing public lands between the Carmel River and the southern end of Garrapata State Park and, if successful, expand further south in Big Sur and elsewhere.

On September 20, 2018, Big Sur Land Trust (the "Trust") and Point Lobos Foundation entered into an agreement with the Community Foundation for Monterey County (CFMC) for the establishment of the Park It! Stewardship Fund. The agreement provides for any cash contributions to the fund to be used for the projects initiated by the Initiative. The funds are held by CFMC in their general fund and are invested according to their investment policies. Big Sur Land Trust has contributed a total of \$100,000 to support the Initiative

The Trust acts as fiscal agent for the Initiative. The Initiative has an account with the Trust and directs the Trust to disburse funds to pay for project expenses on its behalf. Fiscal agency funds representing undisbursed funds held by the Trust at June 30, 2022 totaled \$9,470. The balance in the Park It! Stewardship Fund as of June 30, 2022 was \$53,323.

19. Commitments and Contingent Liabilities

Litigation

The Trust is, by the nature of its programs, subject to an obligation to enforce a variety of claims on a continuing basis. Costs for all known claims not covered by insurance were recognized in the financial statements. In the management's opinion, the amount of any additional liability will not have a material impact on the financial statements.

Restricted Grant

During 2000, the Trust acquired a 68% undivided interest in a parcel of land known as Martin Dunes. The California Coastal Conservancy (Conservancy) funded \$500,000 of the purchase price through a restricted grant. The terms of the grant require the Trust to make continuing best efforts to obtain the remaining 32% interest in the property and if and when 100% interest is acquired, to transfer or dedicate the property for public access and open space preservation in accordance with the Conservancy's grant requirements. Should the Trust choose to dispose of or use its interest in the property in any other manner, it would be required to obtain the approval of the Conservancy. The Conservancy has secured its contingent interest through a \$500,000 lien on the Trust's interest in the property. The Trust intends to ultimately dispose of, transfer, or dedicate the property in a manner consistent with this grant requirement. If the Trust is unable to comply with the grant provisions, it would likely work with the Conservancy to determine an alternative means to protect the property. No liability has been recorded related to the Conservancy's lien.

20. Subsequent Events

The Trust's management has performed an analysis of the activities and transactions subsequent to June 30, 2022 to determine the need for any adjustments to and/or disclosures within the audited financial statements for the year ended June 30, 2022. Management has performed their analysis through January 30, 2023, the date the financial statements were available to be issued. Management determined that the Trust did not have any subsequent events that required recognition or disclosure in the financial statements for the fiscal year ended June 30, 2022.
